

SAGIV - A PROFILE OF QUALITY

**sagiv**

Partnering for Flow Control

Sagiv has been providing quality flow-control accessories and sub-units to companies around the globe for the last 40 years. Sagiv has become a technology leader in the field of hot brass forging and precision machining.

» SAGIV – THREEFOLD OFFERING

The Sagiv offering is threefold: Sagiv Standard Products, Sagiv Original Design Manufacturer (ODM) Services, and Sagiv Contract Manufacturer (CM) Services:

» Sagiv Product Lines

Sagiv offers multiple product lines in fields such as: Fluids & Air, Gas, HVAC, Solar Thermal, Pipe Systems, Caravan-RV utilities and more..

Feel free to visit our website at www.sagiv.com for detailed descriptions and specifications of each of Sagiv's Standard Products.

» Sagiv Original Design Manufacturer (ODM) Services

Sagiv offers its engineering power, forty years' of design experience, its creative and innovative approach, and its engineering facilities – **all of which are yours for the asking.**

» Sagiv Contract Manufacturer (CM) Services

Sagiv's manufacturing know-how and advanced manufacturing facilities - which incorporate brass hot forging, state-of-the-art precision machinery, and advanced assembly lines - **are all available for you.**

» SAGIV PRODUCT LINES

Gas

Sagiv is the local market leader in the field of Gas fittings and accessories. Sagiv has also developed complex ODM solutions for local and international customers. An example of this is a Gas safety valve that offers three levels of safety, for use in the home or in Gas infrastructure installations.

Fluids & Air

Sagiv offers products and solutions in the field of Fluids & Air, such as a wide range of ball valves, control valves, etc. Sagiv has also developed complex ODM solutions for local & global clients. For example, a large variety of elector-fusion blades to be used in large cities and agricultural infrastructures.

Solar Thermal

Sagiv is a major supplier for temperature-controlled Thermostatic Mixing Valves (TMV). The unit is designed to prevent scalding, by limiting the temperature of hot water at point-of-use to 50° Celsius. Sagiv offers other TMVs for an assortment of applications, and has developed complex ODM solutions for local and international customers. For example, a large range of TMVs intended particularly for hospitals and other institutions where special care is required during use.

» SAGIV – TECHNOLOGY LEADERSHIP

The Production Process Yields the Highest Quality Products at the Most Cost Effective Price

- › A technology leader in the field of Brass hot forging
- › State-of-the-art machinery base
- › Technology know-how in various flow control categories
- › Hot forging and precision machining under one production roof
- › On-going R&D projects with leading Israeli universities

» SAGIV – QUALITY AS A PHILOSOPHY

Starting with strict adherence to ISO 9000 standards, ending with stringent Quality Control testing – fulfilling all of the client's quality requirements

- › Quality control is built-in the manufacturing process
- › Standardize raw-material
- › Operating in accordance to ISO 9001-2008
- › Meeting various Local & International standards
- › Product testing group that adopt to the sever quality requirements

» SAGIV – PARTNERING APPROACH

Partnering for Flow Control is the heart of Sagiv's ODM services. At Sagiv we truly believe that the contribution we can make for our customers results in win-win flow-control solutions

Pipe Systems

Sagiv offers UltraSlide™, its patented Pipe System, which surpasses existing engineering approaches and features built-in protection against installation failure. UltraSlide™ is an innovative sliding pipe system that overcomes all the drawbacks of existing pipe systems and for the first time ever offers an ultimate leakage-free technology, Single-step operation, O-Ring free and Increase flow capacity.

HVAC

Sagiv is a major international supplier in the field of HVAC control valves and accessories. Sagiv has also developed complex ODM solutions for both local & global customers. For example, a proportional zone valve that offers remote temperature-control AC systems for large buildings and other infrastructure installations.

Caravan - RV

Sagiv is a quality supplier of inlet and outlet units for caravans (RVs), mobile homes, trailers, etc. The Sagiv range of products includes water inlets, Gas outlets for BBQ, shower outlets, and more.

ABOUT SAGIV

In the heart of the Negev

Located at Mashabei Sadeh, Sagiv is Israel's leading company for the production and export of ball valves, special valves and accessories on demand. These allow full control of water, gas, petrol and oil flow. Our products are integrated within many systems in industry, construction, air conditioning and agriculture.

International Presence

Our plant exports its products to the most advanced and demanding industrialized nations in the world along with developing areas who are seeking advanced flow control solutions.

Close to the Customer

Our R&D department works in close liaison with the engineering divisions of our clients. In this way we can give responses in real time to the unique requests that often arise with client projects.

Excellent Reputation

Sagiv has earned a reputation for high quality, creativity and reliability – a result of our extensive experience on the industry and our passion to solve the challenges introduced by our customers

Financial Strength

Sagiv is equally owned by Kibutz Mashavey Sade and by Gaon Agro Industries Ltd. – a subsidiary of Gaon Holdings Ltd, one of Israel's leading investment companies. Gaon Agro deals primarily in the water infrastructure industry, water related projects and agriculture.
